2

ANALYSIS

Identify the end-user and functional requirements of a website problem that relates to the design and implementation at this level

2019 Q15a

- **15.** Chill Zone is an online electrical retailer. Fridge freezers need to be added to its current website.
 - (a) Analysis was carried out to identify the requirements for the fridge freezer pages.

Part of the analysis report is shown below.

Each new page of the site should focus on a specific fridge freezer. Each page should also allow a user to view pictures, read reviews and view the technical specifications of each fridge freezer. The page should also include a video showing the item in use.

requirements of the fridge freezer pages.							
Requirement 1							
Requirement 2							

Using the information from the analysis report above, identify two end-user

DESIGN

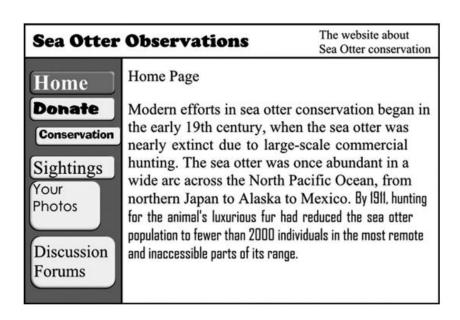

Describe and exemplify the website structure with a homepage, a maximum of four linked multimedia pages, and any necessary external links

2019 Q18a

18.	The	e Giants basketball team has a website.	
	(a)	The website contains the following four pages.	
		Home page	
		Information about the club	
		Upcoming fixtures	
		How to contact the club	
		All the pages on the site include a link back to the home page. The page with fixture information also contains an external hyperlink to the Scottish Basketball League.	
		Draw the navigational structure for this website.	4

2017 Q20d

Sea Otter Observations uses a simple website to provide information about otters. The home page for the website is shown below.

(d)	Draw, referring to the home page and the other pages as example diagram to represent the navigation structure of the Sea Cobservations website.		

DESIGN

Describe, exemplify and implement, taking into account end-user requirements, effective user-interface design (visual layout and readability) using wire-framing: navigational links; consistency across multiple pages; relative vertical positioning of the media displayed; file formats of the media (text, graphics, video, and audio)

DESIGN

Describe and identify the implications for individuals and businesses of the Copyright, Designs and Patents Act 1988 relating to: web content (text, graphics, video, and audio)

(g)	John used a search engine to find a suitable graphic to use on each of his pages.							
	State one way John could ensure he does not breach the Copyright, Designs and Patents Act 1988.	1						
2019	Q15b(i)							
(b)	All the images that Chill Zone wants to use are on the fridge freezer manufacturers' websites.							
	(i) Describe what Chill Zone must do to avoid prosecution under the Copyright, Designs and Patents Act when using these images.	1						
2018	Q13							
13.	Eduardo has created a website to display photos that he has taken. Explain why Eduardo did not have to consider the Copyright Designs and Patents Act when creating his website.	1						
	Q18b	200						
18.	Fass is an art dealer. When he visits an artist's studio, he uses a catalogue on his mobile phone to store photographs and information about artworks plans to sell.							
(b)	Explain why Fass must ask permission to store a digital copy of the artists' artwork.	1						

2016 Q18d(i)

18. A software development company decides to review staff knowledge of computer related legislation.

Mikal is asked to create an app covering a range of legal issues.

(d) In line with Health and Safety legislation, the company provides adjustable seating and guidelines on maintaining good posture.

Mikal finds graphics on a website that he can use to illustrate his next quiz question.

(i)	Explain why he might need to seek permission to use the graphics legally.	1	1

DESIGN

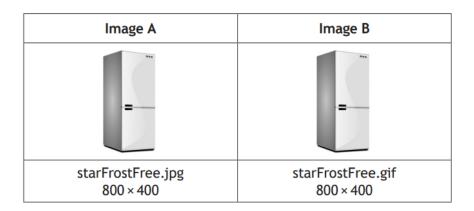

Compare a range of standard file formats: audio standard file formats WAV and MP3 in terms of compression, quality, and file size; bit-mapped graphic standard file formats JPEG, GIF, and PNG in terms of compression, animation, transparency, and colour depth

\sim	D	\sim	4	\sim
√ 1 1	\mathbf{r}		1	n

10.	Jane is entering an online competition. She edits a recording of herself singing to save and upload to the competition's website.						
	Describe one advantage and one disadvantage of saving and uploading an MP3 file format rather than a WAV file format to the website.	2					
	Advantage of MP3 file format						
	Disadvantage of MP3 file format						
SQP	Q18e(ii)						
(ii)	State why the file type of the bit-mapped graphic is suitable for use on a web page.	2					

2019 Q15b(ii)

(ii) Chill Zone must select one of the fridge freezer images below. Each image has the same resolution.

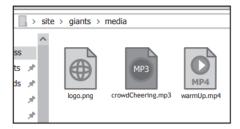

State	one	advantage	of	each	image	compared	to	the other.

Image A advantage_____

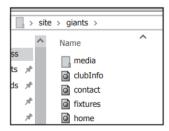

Image B advantage _____

2019 Q18d(i)

(d) All the video, audio and images used on the Giants website are stored in a folder called 'media' in the following location.

Each page on the site displays an image of the Giants logo in the same position.

(i) Identify the graphic file format used to store the image.

1

2018 Q1

1.	State a graphic file type suitable for storing an animated logo.							
201	B Q3							
3.	Describe one method used to reduce the file size of a sound file without altering its running time.							
201	3 Q18c							
(c)	State two reasons why jpeg files are often used as the standard file format for photographs on web pages.							
	Reason 1							
	Reason 2							

2017 Q5

5. A graphic of a dog is placed in front of a coloured rectangle.

State a suitable file format for the dog graphic.

DESIGN

Describe the need for compression

2017 Q16d(iii)

(iii)	Explain why compressing the graphic would benefit the users of the Go Universe website.							
	<u>DESIGN</u>							
De	escribe, exemplify, and implement prototyping (low-fidelity) from wireframe design at this level							
SQP	Q7							
7.	Explain why web designers make use of low-fidelity prototyping.							
2018	3 Q12							
12.	Explain why low-fidelity prototypes are used when designing a website.	1						

IMPLEMENTATION (CSS)

Describe, exemplify and implement internal and external Cascading Style Sheets (CSS)

- Selectors, classes and IDs
- Properties
 - o Text
 - Font (family, size)
 - Color
 - Alignment
 - Background color

SQP Q15b

 Two golfers from a golf club are in the headline article of the 'Scotland Yesterday' newspaper.

(b) A cascading style sheet (CSS) rule shown below is used to style the large headings in the golf club's website:

```
h1 { font-size: 20px;
    font-family: "Times New Roman";
    text-align: center;
}
```

Paragraph text in this website should be displayed on the left, using a Helvetica font that is half the height of the text used in the large headings.

Write a CSS rule that would style the paragraphs.

SQP	Q18d	(i)

	(d) The text in the web page uses internal style rules positioned in the <head>.</head>
	(i) State the type of CSS selector shown by the # symbol at the beginning of the CSS rule below. 1
#16	atin {font-size:10px;font-style:italic;color:LightGreen;}
SQP C	Q18f
(f)	John is advised to use an external cascading style sheet.
	Describe what is meant by an external cascading style sheet. 2
2019	Q15c(iii)
15.	Chill Zone is an online electrical retailer. Fridge freezers need to be added to its current website.
(iii)	Explain why the line of code below is included in every page of the website.
	<pre><link href="ChillStyle.css" rel="stylesheet" type="text/css"/></pre>

2019 Q18b

18. Julie creates a website to advertise her athletics club.

The text 'Opponent – Date – Venue' is styled using the following rule.

(i) State the type of selector used in the above style.

1

2018 Q18d

- 18. Julie creates a website to advertise her athletics club.
- (d) When Julie created the 'Junior Club' web page, she used three <div> elements and external CSS rules to colour each of the three sections.

```
HTML Document
<!DOCTYPE html>
<html>
<title>Forrest Runners</title>
<link rel="stylesheet" href="styles.css">
</head>
<body>
<div>
<h2>Forrest Juniors</h2> Forrest Juniors Running Club is open
to anybody aged 5 to 17. If you wish to run seriously or just
for fun please come along at the following times.
<div class="middlePart">
<h2>Meeting Times</h2> Junior meeting times are 4pm-6pm on
Tuesday, Wednesday and Sunday afternoons.
</div>
<div>
<h2>Required Kit</h2> All runners are expected to bring their
own:
 T-shirt or running top  Shorts  
Trainers or running spikes 
<a href="homePage.html">Back to Home Page</a>
</div>
</body>
                                    styles.css
</html>
                      body{background-color:DarkBlue}
                      div {background-color:LightBlue}
                      p { font-family: Times New Roman;
                          font-size:12px;
                          text-align:left;
                          color:Black}
```

.middlePart {background-color:White}

Jul	ie styled her <div> elements to display with a light blue background:</div>	
	<pre>div {background-color:LightBlue}</pre>	
	plain why a browser would not display the page with three light blue ctions.	2
_		
2018 (e)	Q18e The Junior Club web page is displayed in a browser. Part of this is shown below.	
	All runners are expected to bring their own: • T-shirt or running top • Shorts • Trainers or running spikes	
	Write a CSS rule that would ensure the text size of the bullet point list is the same text size as the sentence.	2

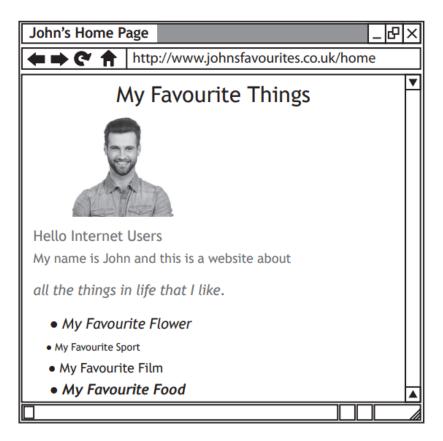

IMPLEMENTATION (HTML)

Describe, exemplify and implement HTML code: HTML, head, title, body, heading, paragraph, DIV, link, anchor, IMG, audio, video, lists (ol, ul, li).

Read and explain code that makes use of the above HTML

SQP Q18b

18. John has created a website listing his favourite things. The home page of his website is shown below.

(b) John wishes to show his favourite sports as a bullet point list on his 'favourite sports' page. His list of favourite sports will be implemented using
 and tags.

Add HTML and opening and closing tags to the list below.

Golf
Cricket
Ten Pin Bowling

2019 Q2

2. Add HTML body, h1 and title opening and closing elements to complete the code below.

<html></html>
<head></head>
<>My first webpage<>
<>
<>Welcome to my site<>
Here is the webpage that I have created.
<>

2019 Q9 9. The HTML code below is used to create a web page.

```
<html>
<head>
<title> French Facts </title>
<style>
h1 {text-align:right}
</style>
<head>
<body>
<h1> France </h1>
 Facts about France: 
<l
Capital: Paris 
Population: 67 m 
Flag: tricolour 
</body>
</html>
```

Draw how this web page will look when viewed in a browser. Some of the content has already been added.

2

2019 Q15c(ii)

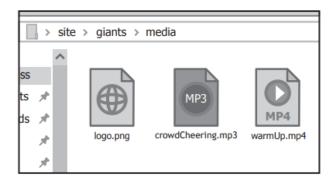

- **15.** Chill Zone is an online electrical retailer. Fridge freezers need to be added to its current website.
- (ii) The code below is added.

Describe two purposes of this code.

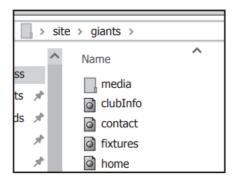

```
<video width = "500" height = "250" controls>
<source src="starFrostFree.mp4" type="video/mp4">
</video>
```

2019 Q18d(ii)

(d) All the video, audio and images used on the Giants website are stored in a folder called 'media' in the following location.

Each page on the site displays an image of the Giants logo in the same position.

(ii) Write the code that would be needed to display this image on the club information page.

2018 Q18b

- **18.** Julie creates a website to advertise her athletics club.
- (b) When implementing the home page prototype, Julie makes use of several HTML elements.

The diagram below identifies where <h1> and elements have been used.

Complete the diagram by drawing arrows to identify where the , <h2> and <a> elements should be used.

→ Forrest Runners Home Page <h1> -Welcome to Forrest Runners. Please select a link below to discover more about our club. **Meeting Times** Competitions <h2> Club Awards Junior Club **About Us** > Formed in 1996, our club has an active membership of around 150 runners. In 2005 we built a club house next to Pitwin Running Track where our formal track meetings take place three evenings a week. Informal cross-country and town group runs are organised by members and posted on the club notice board. <a>>

(c)	State two	reasons	why	jpeg	files	are	often	used	as	the	standard	file
	format for	photogra	aphs (on we	b pag	ges.						

Reason 1			
Reason 2			

2

2018 Q23c(i) & Q23c(ii)

(c) Sydney Bakery also maintains a website.

Part of the HTML code for the home page is shown below.

```
. . .
<style>
.mainHeading {text-align:right}
h2 {text-align:center}
div {text-align:left}
</style>
</head>
<body>
<div class="mainHeading">
<h1>Sydney Bakery</h1>
<h2>Baking Since 1935</h2>
</div>
<div>
Started over 70 years ago, Sydney's now employs
over 100 staff.
<a href="#Option1">Sydney's Family</a>
<a href="#Option2">Our Stores</a> <a
href="#Option3">Our Products</a>
The founders of our bakery were
David and Davina Sydney.
</div>
. . .
```

(i)	Explain the purpose of href="#Option1" in the code above.	1

(ii)	Draw how the home page will look when viewed in a browser.
	Some of the content has already been added.

5

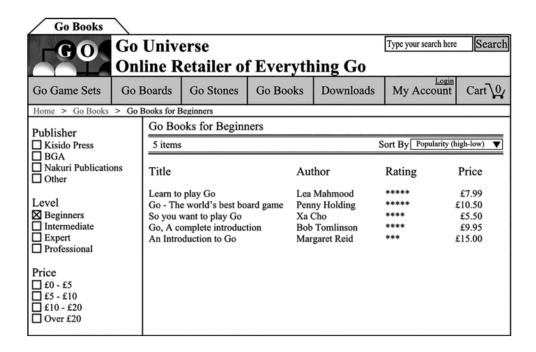

Started over 70 years ago, Sydney's now employs over 100 staff.

The founders of our bakery were David and Davina Sydney.

2017 Q16c

Jenny works for a website design company. Her latest project is to design and implement a website for Go Universe.

She creates the website below.

(c)

Jenny used the simple template below when coding the HTML.	
html <html></html>	
<head> <title> </title> </head>	
 <div> Page Heading </div>	
Describe how the above HTML was edited to make the words "Go Books" appear at the top of the webpage.	

IMPLEMENTATION

Describe and implement hyperlinks (internal and external), relative and absolute addressing

13.										
2018 (f)		in the difference between an internal and an external hyperlink.								
2018	Q18f(i	& Q18f(ii)								
8.	Juli	e creates a website to advertise her athletics club.								
(f)	The	user can return to the Home page from the Junior Club page.								
	(i)	State the type of hyperlink that has been used to return to the Home page.								
	(ii)	State the type of addressing that has been used in the hyperlink.								
2017	Q1									

2017 Q16d(i)

<i!< th=""><th></th><th>above logo is added to each page using the following code. ="graphics/logo.bmp" alt="Logo" style="width:120px;height:60px;"></th></i!<>		above logo is added to each page using the following code. ="graphics/logo.bmp" alt="Logo" style="width:120px;height:60px;">
		The code contains the link to the stored graphic file. State the type of addressing used.
2010	5 Q17c	
(c)	The h	nomepage contains hyperlinks. Describe the function of a hyperlink.
2010	5 Q17e	
(i)	Expla	in what is meant by an external link.

IMPLEMENTATION (JAVASCRIPT)

Describe and identify Javascript coding related to mouse events: onmouseover; onmouseout

SQP Q18c

One of John's linked pages shows his favourite flower. When the HTML document below is displayed in a browser, it generates the web page shown.

```
HTML document
<!DOCTYPE html>
<h+m1>
<head>
<title>Page Title</title>
<style>
h1 {font-size:20px;font-style:bold;text-align:center}
p {font-size:12px;color:DarkGreen;text-align:left}
#latin {font-size:10px;font-style:italic;color:LightGreen}
img {width:304px;height:300px;align-left}
</style>
</head>
<body>
<h1>My Favourite Flower</h1>
My favourite flower is called a Magnolia. They are ancient flowers thought
to be around 20 million years old. A picture of a Magnolia in full flower is
shown below. <br>
<img id="photo" src="magnolia.jpg" alt="Magnolia Flower"</pre>
onmouseover="document.getElementById('photo').src='magnoliaFlower.jpg'"/>
Magnolioideae
</body>
</html>
```

Web page

My Favourite Flower

My favourite flower is called a Magnolia. They are ancient flowers thought to be around 20 million years old. A picture of a Magnolia in full flower is shown below.

Magnolioideae

- (c) The tag contains some additional code used to create dynamic content.

(i) State the language used to create dynamic content in web pages.

(ii) The graphic changes when the mouse pointer is placed over it.

Identify the event in the code that causes the graphic to change.

2019 Q15c(i)

Some of the HTML code used to create one of the pages on Chill Zone's website is shown below.

```
<html>
<head>
<title> Star Frost Free </title>
<link rel = "stylesheet" type="text/css"</pre>
  href="ChillStyle.css">
</head>
<body>
<h1> Star Frost Free </h1>
<h2> Images </h2>
View pictures of the new Star Frost Free 
<imq src="starFrostFreeOpen.jpg"</pre>
  onmouseover="this.src='starFrostFreeClosed.jpg'">
<h2> Reviews </h2>
 A great fridge! 
 Perfect size for our kitchen
<q\>
Go to <a href="home.html">Home Page</a> 
</body>
</html>
```

(i) When viewed in a browser the fridge freezer can be displayed as either an image showing the door open or an image showing the door closed.

Identify the JavaScript event used to implement this feature.

1

2018 Q9

9. When a mouse pointer hovers over an image on a web page the image changes to a different picture.

State the type of coding and the event used to implement this.

2

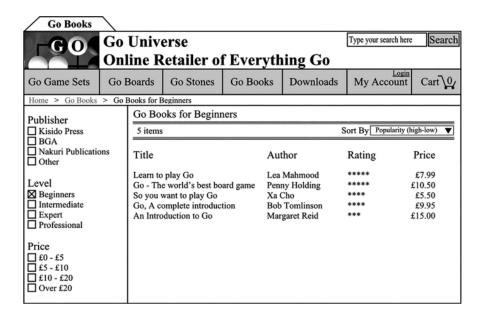

Type of coding _____

Event

2017 Q16b

16. Jenny works for a website design company. Her latest project is to design and implement a website for Go Universe.

She creates the website below.

(b) Identify one area of this website where Javascript has been used to add interactivity.

TESTING

Describe and exemplify testing: matches user interface design; links and navigation work correctly; media such as text, graphics, and video display correctly; consistency

SQP Q15c

(c)	The golf club's website is tested by club members. Two members report that the video does not display correctly.	
	Describe two additional tests that could be performed on the website.	2
	Test 1	
	Test 2	

SQP Q18a

18. John has created a website listing his favourite things. The home page of his website is shown below.

(a)	John tests his website using a browser and notices a lack of consistency.
	Explain why John's home page lacks consistency.

SQP 18d(ii)

	(ii)	The CSS	rules	below	contain	three	stv	/les	eac	h.
--	------	---------	-------	-------	---------	-------	-----	------	-----	----

p {font-s	<pre>ize:12px; color:DarkGreen; text-align:left}</pre>
#latin {f	<pre>ont-size:10px; font-style:italic; color:LightGreen;}</pre>
	Both of these rules have been applied to the text below the graphic.
	p ID="latin">Magnolioideae
	Describe how the text below the graphic will look when it is viewed in a browser.
18 Q8	
Describe website.	one aspect of consistency that should be considered when testing a
18 Q18g	
10 4105	
) Web dev	
State tw	elopers test the consistency of the web pages they create.
	elopers test the consistency of the web pages they create. o other examples of tests that can be carried out on a web page.

2017 Q20a

(a)

20. Sea Otter Observations uses a simple website to provide information about otters. The home page for the website is shown below.

lo	dentify two examples of poor consistency in the user interface above.	2
E	Example 1	7.5
E	Example 2	

EVALUATION

Evaluate solution in terms of fitness for purpose

2019 Q6

6. An archaeology club wants a website to provide information about the club and how to join.

A screenshot of the completed home page is shown below.

Archaeology Club

Welcome to the website for the Archaeology Club. Here you will find links to the different pages on the site as well as lots of information about different aspects of archaeology.

Areas of the site:

- Fossils
- · Dino facts

The club is part of the British Archeological Society

Evaluate the website in terms of its fitness for purpose.

2019 Q18c

(c) During testing it was found that the external hyperlink shown below did not navigate to the Scottish Basketball League website.

Scottish
Basketball League

Describe the problem with the addressing that has been highlighted by this testing.

1

2017 Q2

2. The web page below was created to sell jigsaws online.

State two reasons why the above web page is not fit for purpose.

Reason 1.		

Reason 2
